R2W & M2O WASPIE STYLES

Waspies are one of the smallest members of our silhouette line sheet. Small but strong. Measuring 9" tall at the center front and center back, the waspie encases the torso with strong hourglass shaping power. Sitting just above the floating ribs on the chest, and 3" down below from the waist is where it sits on the high hips.

Accentuate your waist in a strong way with your own waspie. The waspie is very versatile, as it can be worn on top of blouses and dresses like a belt. In addition it is very suitable for daily use, because it does not restrict the freedom of movement.

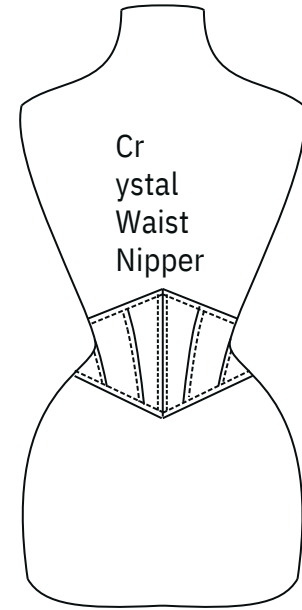

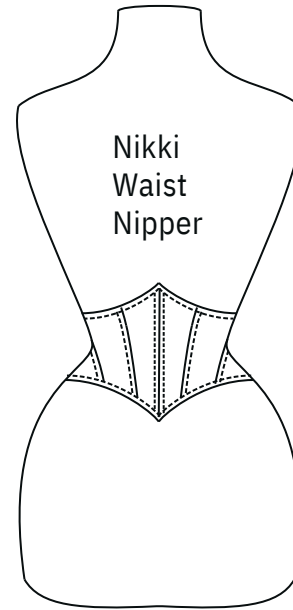

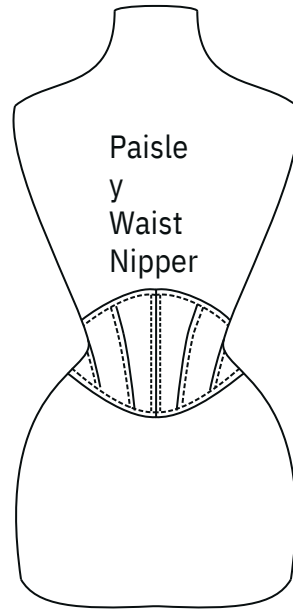

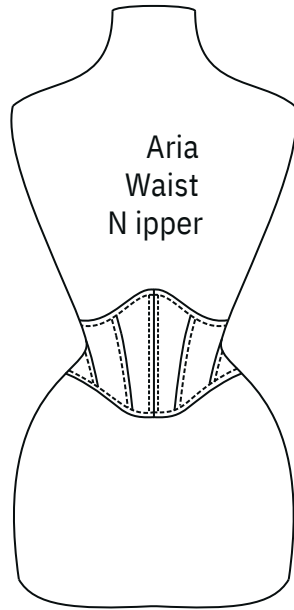

The waspie is a prime choice for tightlacers and waist trainers alike.
